

Congressman Randy Forbes is working for BETTER OPPORTUNITIES for FUTURE GENERATIONS

forbes.house.gov

SUPPORTED INCREASED ACCESS & AFFORDABILITY OF COLLEGE EDUCATION.

Randy voted to increase the maximum Pell Grant award amount per student, lower student loan interest rates, and provide grants to promising students who commit to teaching in high-need subjects like math and science.

CHAMPIONED "DIGITAL DIVIDE" LEGISLATION TO HELP ALL STUDENTS HAVE ACCESS TO TECHNOLOGY.

Randy introduced and worked for the passage of his "digital divide" bill, which established a new program to help historically minority-based institutions bridge the technology and economic opportunity gap (H.R. 694).

PROMOTED SCIENCE & TECHNOLOGY EDUCATION.

Randy worked to establish a committee within the National Science and Technology Council to coordinate programs aimed at promoting science, technology, and mathematics (H.R. 1709).

PROTECTING IN-STATE TUITION FOR MILITARY DEPENDENTS.

Randy has worked to ensure that the children of our military families have the same access to an affordable college education. He has supported legislation that provides in-state tuition rates to dependents of military service members within their current state of residence, provided they have lived in that state for at least 30 days, and allows the dependent to retain this tuition rate through graduation.

EXPANDING OPTIONS FOR COLLEGE SAVING.

Randy has worked to expand options for college savings by increasing limits on tax advantaged college savings accounts and has supported legislation that would create a permanent tuition deduction for post-secondary education. This legislation would allow families and individuals to continue taking a deduction of up to \$4,000 for qualifying education expenses.

STAY INFORMED ON ISSUES IMPACTING HIGHER EDUCATION.
