Office of Congressman J. Randy Forbes (VA-04)  
9401 Courthouse Road, Suite 202  
Chesterfield, Virginia 23832

Dear Congressman Forbes,

Thank you for the opportunity to provide you with our perspective on TPA as well as your support of the GSP renewal – both pieces of legislation are very important to Sabra and critical to our ongoing success.

In regard to TPA as Meiky said we are very positive about it. With a key component of our continued growth strategy being to expand globally, having trade agreements in place that support and enable this strategy are critically important. With the increased ability to streamline the negotiation process as well as expedite the legislation & implementation process of such trade agreements being at the core of TPA, this legislation directly supports our growth strategy.

Additionally the new negotiating objectives particularly in the areas of agriculture, regulatory, labor and environment are consistent with Sabra's culture and our core values.

Please let me know if additional clarification is needed and while we will continue to monitor the progression of this legislation, your ongoing insight to the status will be greatly appreciated.

Kind regards,

Meiky Tollman  
VP Growth and Capabilities

Susan Hickey
