

Congressman Randy Forbes Working for Our Nation's **MILITARY FAMILIES**

Improving the Quality of Life for Military Families

Randy has consistently supported pay increases for active duty servicemembers, improvements in active duty healthcare and education, and programs to ease transitions for our military families.

Ensuring Military Spouses are Cared For

Randy has fought to allow military spouses to be compensated for a service related death and still receive full survivor benefits and supported legislation to provide employers a tax incentive to hire qualified military spouses.

Creating First-Rate Education Opportunities for Military Children

Randy has been at the forefront of efforts to accelerate federal education assistance, called Impact Aid, for military children who attend local school districts to ensure schools have the resources to provide high quality educational opportunities to all students.

Supporting Our Troops on the Field

As Ranking Member of the House Armed Services Readiness Subcommittee, Randy is committed to making sure our men and women in uniform are the best-equipped, most capable, and have the best resources available to complete the missions required of them.
